Our Story.

Established in 2019, Go Talent HR Solutions emerged from the success of Grow Craft HR Consultancy Est. in the U.A.E., with a clear purpose: to connect the right talent with the right opportunities through innovative recruitment solutions.

With deep insight into the Middle East's cultural and business landscape, we design tailored hiring strategies across diverse industries—including Hospitality, Retail, Leisure & Entertainment, Construction, Real Estate, and Facilities Management.

What began as an extension of Grow Craft's HR expertise has evolved into a strong, independent brand with its own identity. Guided by a passionate team, we prioritize quality over quantity, ensuring every solution is customized to meet the unique needs of our clients. At Go Talent, we do more than fill roles—we help organizations grow, empower careers, and create lasting success.

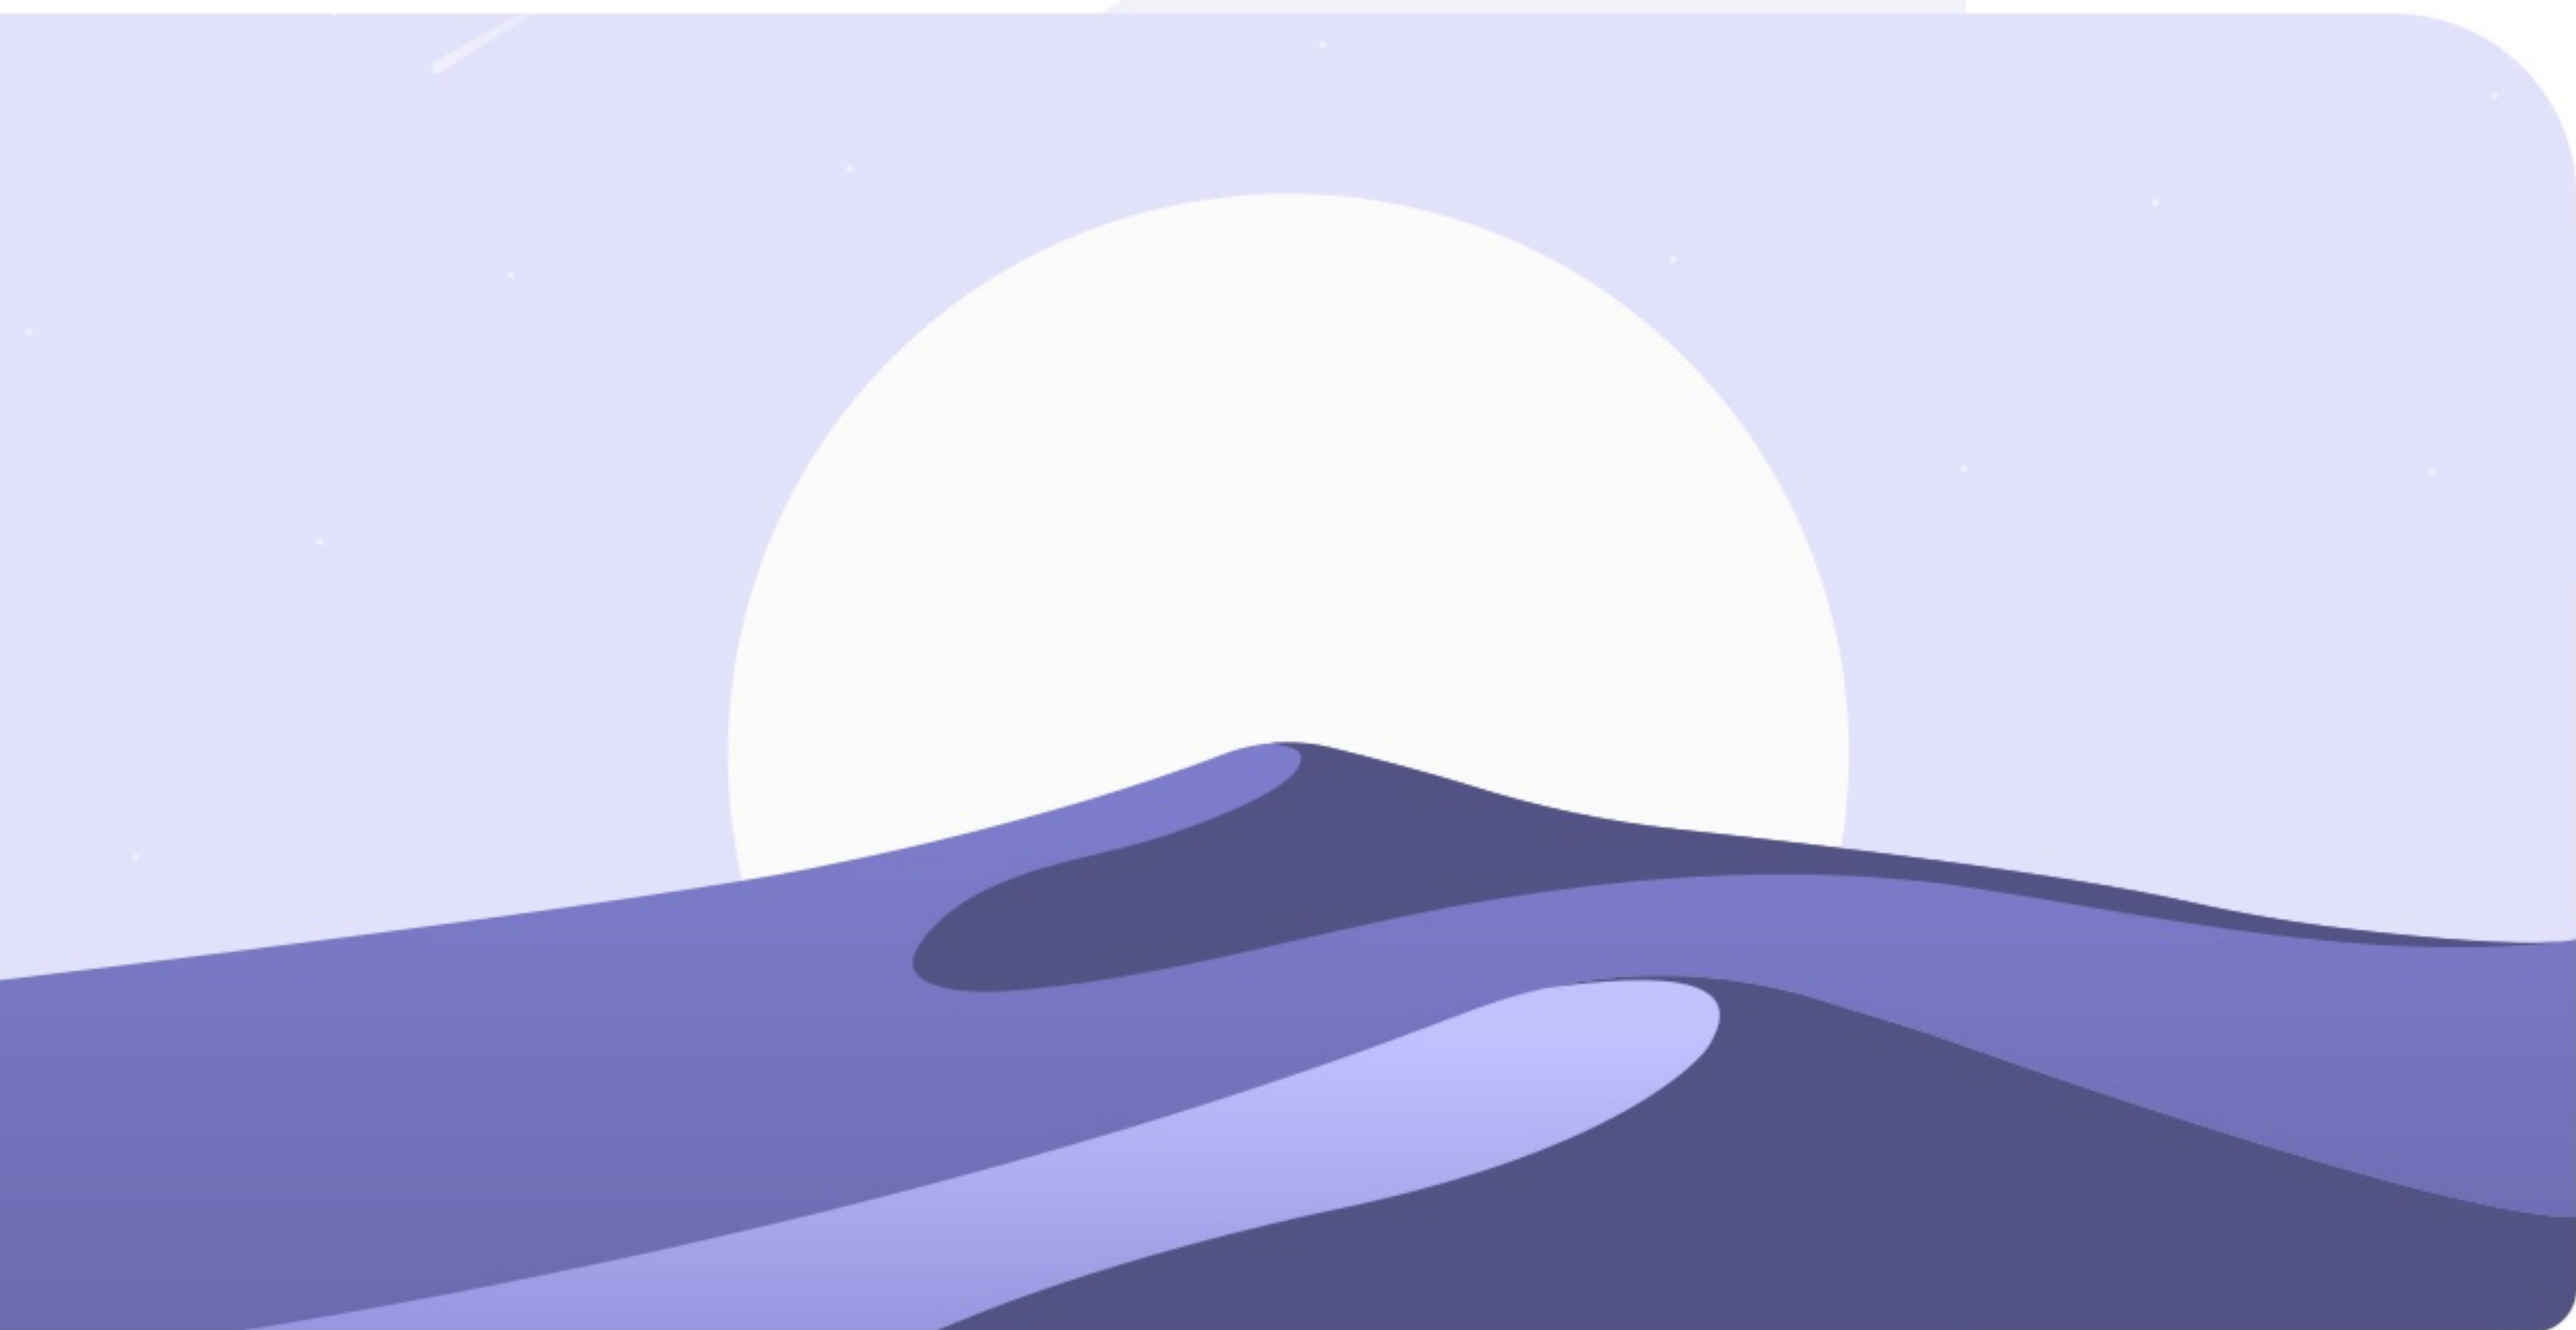

Mr. Shameer Abdullakutty, Assoc CIPD
Managing Director

With over 18 years of human resources experience across India and the Middle East, I have consistently observed one fundamental truth: people are the driving force behind every successful organization.

My career has spanned diverse industries—including retail, construction, hospitality, and facilities management—where I have partnered with leadership teams to address critical people-related challenges. These have ranged from talent acquisition and workforce development to employee engagement and organizational culture.

As an HR consultant and entrepreneur, I now leverage this expertise to provide business leaders with practical, cost-effective HR solutions tailored to their strategic objectives. This includes attracting and retaining top talent, strengthening leadership pipelines through career development and succession planning, and fostering workplace cultures that support both performance and growth.

“ Ultimately, my mission is clear: to enable organizational success by unlocking the full potential of its people. ”
